

Vanuatu women in sport commission

There were 5 members yesterday at lycée français de Port-Vila representing the Vanuatu in sport commission: Jill, Jessica, Anolyne Lulu, Chichi and Linlin.

Their visit was very instructive for us students, because they talked about their achievement of becoming professional players in table tennis or beach volleyball. And this was very emotional and a source of inspiration for us.

As Anolyne Lulu said: "sport gives me what I need for my family». That means that she believed in herself when she started to play table tennis at the age of 15. She said: "no matter your age or your gender, you can accomplish whatever you want".

Linlin declared that it is a challenge for them as women too because they have family ,sharing their time between trainings and family is a very big deal .They said they are are lucky today because they receive the same prize money as men, and have TV coverage to promote their achievement.

Jessica also said that sport can create social friendship with others, it means like we can meet new people and make new friends by sport. She said too that everyone can do anything, normal persons as persons with disabilities.

Anolyne Lulu is considered like a role-model because she is at the same time team manager, professional tennis player of high level, a mother and has a zumba class. What a busy life! But the important thing we must remember is that women can do as good as men .And it is not because of your age, your gender that you cannot fulfill your dreams.
